

TimberHomes is a small, worker-owned and worker-managed timber frame construction company with a product line of trailhead kiosks and park structures. TimberHomes is currently looking for someone to help with the manufacturing of trailhead kiosks and other outdoor products. The work would be largely based at the THVT's Montpelier shop and could be full time.

This position is a temporary position, and will last until December 2025, with some possibility of extension. While at this time TimberHomes is not hiring for long-term shop/site carpenters, some of our long-term carpenters have started with us as short-term workers.

Though not necessary, the ideal candidate would have:

- carpentry and/or manufacturing experience
- ease with reading/following plans and accurately measuring/laying out timbers
- ability to operate the full complement of carpentry tools comfortably and safely, including traditional hand tools
- ability to lift and carry 50 lbs
- experience with heavy equipment (tractors, loaders, trailers, etc.) and securing heavy loads
- a strong work ethic, attention to detail, a positive attitude, and aptitude for both independent and team-oriented work

Reimbursement will be commensurate with experience and applicable skills

Our Timber Gnomes (as we call ourselves) are tight knit group; we try to maintain a steady flow of baked goods and some of us talk about our feelings at work. We value diversity and inclusion, and welcome applications from anyone and everyone as long as they have some carpentry and/or trades experience. We're proud to have many women and queer/trans carpenters working for TimberHomes.

To apply, please send an interest letter and a brief resume or list of experience to Timo Bradley (timo@timberhomesllc.com). We will review applications on a rolling basis until the job is filled.
